

FLAME® flexible gas trolley.

For both the 5 and 10 liter gas cylinders.

New complete ergonomic equipment for cutting, welding, and brazing. The picture shows the trolley with a 5 litre gas cylinder but also fits 10 litres cylinders.

FLAME® kit is a modular equipment suitable for service work requiring high levels of mobility within plumbing, cooling assembly, real estate and operational maintenance. It is also suitable for hobby use.

FLAME® flexible gas trolley fits both the 5 and 10 liters gas cylinders and has air rubber wheels as standard which enables that the gas trolley to roll smoothly on all surfaces. Cylinders have an efficient attachment and securely during transport and lifting. FLAME® flexible gas trolley is made of powder coated steel and is approved for lifting. There is some two storage drawers for equipment.

The equipment included in FLAME® kit meets the requirements of EN 2503, EN 730-1, EN 559, EN 560, EN 562 and EN ISO 5172. The hose for acetylene and oxygen is a 5 meter twin-tube with compression fittings and check valves BV 12.
