

 Issue Date:
 16.01.2013

 Last revised date:
 14.04.2020

Version: 1.2

SDS No.: 000010021818 1/12

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1 Product identifier | |
|--|--|
| Product name: | Argon, refrigerated liquid |
| Trade name: | LAR 4.0 Industrial, LAR 4.6, LAR 4.7 Laser, LAR 4.8, LAR 5.0, LAR 4.6 Industrial |
| Additional identification | |
| Chemical name: | Argon |
| Chemical formula: | Ar |
| INDEX No. | - |
| CAS-No. | 7440-37-1 |
| EC No. | 231-147-0 |
| REACH Registration No. | Listed in Annex IV/V of Regulation (EC) No 1907/2006 (REACH), exempted from registration. |
| 1.2 Relevant identified uses of the subst | ance or mixture and uses advised against |
| Identified uses: | Industrial and professional. Perform risk assessment prior to use. Balance gas for mixtures. Blanketing gas. Calibration gas. Carrier gas. Combustion, melting and cutting processes. Fire suppressant gas. Food packaging gas. Inerting gas. Inflation systems. Insulant. Laboratory use. Laser gas. Lighting. Pressure head gas, operational assist gas in pressure systems. Process gas. Professional diving. Purge gas. Test gas. |
| Uses advised against | Industrial or technical grade is unsuitable for medical applications or inhalation. |
| 1.2 Datails of the supplier of the sefetud | ata shaat |

1.3 Details of the supplier of the safety data sheet

SupplierTelephone: + 370 52787788Linde Gas UABTelephone: + 370 52787788Didlaukio g. 69LT-08300 Vilnius, LietuvaE-mail: sds.ren@linde.comE-mail: sds.ren@linde.com

1.4 Emergency telephone number: Poisons Control and Information Bureau, tel. +370 52 36 20 52

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 as amended.

Physical Hazards

Gases under pressure

Refrigerated liquefied gas

H281: Contains refrigerated gas; may cause cryogenic burns or injury.

| | | SAFETY DATA SHEET Argon, refrigerated liquid | | |
|---|--|--|----------------------------------|--|

| SECTION 5: Firefigh | ting measures | | |
| General Fire Ha | zards: | Heat may cause the containers to explode. | |
| 5.1 Extinguishing m | edia | | |
| | | | i |

Suitable extinguishing media: Material will not burn. In case of fire in the surroundings: use appropriate extinguishing agent.

Unsuitable extinguishing None. media:

| Issue Date: | 16.01.2013 |
|--------------------|------------|
| Last revised date: | 14.04.2020 |

Version: 1.2

SDS No.: 000010021818 4/12

5.2 Special hazards arising from the None. substance or mixture:

Hazardous Combustion Products: None.

5.3 Advice for firefighters

Special fire fighting
procedures:In case of fire: Stop leak if safe to do so. Continue water spray from protected
position until container stays cool. Use extinguishants to contain the fire. Isolate
the source of the fire or let it burn out.

Special protective equipment
for fire-fighters:Firefighters must use standard protective equipment including flame retardant
coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Guideline: EN 469 Protective clothing for firefighters. Performance requirements
for protective clothing for firefighting. EN 15090 Footwear for firefighters. EN 659
Protective gloves for firefighters. EN 443 Helmets for fire fighting in buildings and
other structures. EN 137 Respiratory protective devices - Self-contained open-
circuit compressed air breathing apparatus with full face mask - Requirements,
testing, marking.

SECTION 6: Accidental release measures

| 6.1 Personal precautions, protective equipment and emergency procedures: | Evacuate area. Provide adequate ventilation. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. EN 137 Respiratory protective devices - Self-contained open- circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking. |
|--|--|
| 6.2 Environmental Precautions: | Prevent further leakage or spillage if safe to do so. |
| 6.3 Methods and material for containment and cleaning up: | Provide adequate ventilation. Liquid spillages can cause embrittlement of structural materials. |
| 6.4 Reference to other sections: | Refer to sections 8 and 13. |

 Issue Date:
 16.01.2013

 Last revised date:
 14.04.2020

Version: 1.2

SDS No.: 000010021818 5/12

SECTION 7: Handling and storage:

| 7.1 Precautions for safe handling: | Only experienced and properly instructed persons should handle gases under pressure. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Refer to supplier's handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with local/regional/national/international regulations. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed im a container stand and is ready for use. Damaged valves should be reported immediately to the supplier Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminates particularly oil and water. If user experiences any difficulty operating container valve discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place. | |
|--|---|--|
| 7.2 Conditions for safe storage, including any incompatibilities: | Containers should not be stored in conditions likely to encourage corrosion. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible material. | |
| 7.3 Specific end use(s): | None. | |
| SECTION 8: Exposure controls/personal protection | | |

8.1 Control Parameters

Occupational Exposure Limits

None of the components have assigned exposure limits.

| | | rigon, renigerated liquid | |
|-----------------------------------|--------------------------|--|---|
| Issue Date: Last revised date: | 16.01.2013 14.04.2020 | Version: 1.2 | SDS No.: 000010021818 6/12 |
| | | | |
| 8.2 Exposure contr | ols | | |
| Appropriate en controls: | gineering | Consider a work permit system e.g. for maintenance air ventilation. Oxygen detectors should be used we released. Provide adequate ventilation, including a ensure that the defined occupational exposure lime under pressure should be regularly checked for lea permanent leak tight connections (eg. welded pipe when using the product. | when asphyxiating gases may be appropriate local extraction, to it is not exceeded. Systems akages. Preferably use |
| Individual prote | ection measures, | such as personal protective equipment | |
| General inforr | nation: | A risk assessment should be conducted and docum assess the risks related to the use of the product ar matches the relevant risk. The following recommer Keep self contained breathing apparatus readily av Personal protective equipment for the body should being performed and the risks involved. | nd to select the PPE that ndations should be considered. vailable for emergency use. |
| Eye/face prot | ection: | Safety eyewear, goggles or face-shield to EN166 s exposure to liquid splashes. Wear eye protection to Guideline: EN 166 Personal Eye Protection. | |
| Skin protectio Hand Protec | | Wear cold insulating gloves. Guideline: EN 511 Protective gloves against cold. | |
| Body proteo | tion: | Wear apron or protective clothing in case of contac | :t. |
| Other: | | Wear safety shoes while handling containers Guideline: ISO 20345 Personal protective equipme | nt - Safety footwear. |
| Respiratory Pi | otection: | Not required. | |
| Thermal hazaı | ds: | If there is a risk of contact with the liquid, all protect suitable for extremely low temperatures. | ctive equipment should be |
| Hygiene meas | sures: | Specific risk management measures are not require hygiene and safety procedures. Do not eat, drink o product. | |
| Environmental controls: | exposure | For waste disposal, see section 13 of the SDS. | |

SECTION 9: Physical and chemical properties

| 9.1 Information on basic physical and chemical prop | perties |
|---|--|
| Appearance | |
| Physical state: | Gas |
| Form: | Refrigerated liquefied gas |
| Color: | Colorless |
| Odor: | Odorless |
| Odor Threshold: | Odor threshold is subjective and is inadequate to warn of over exposure. |
| рН: | Not applicable. |
| Melting Point: | -189 °C |
| Boiling Point: | -186 °C |
| Sublimation Point: | Not applicable. |
| Critical Temp. (°C): | -122,0 °C |
| Flash Point: | Not applicable to gases and gas mixtures. |
| Evaporation Rate: | Not applicable to gases and gas mixtures. |
| Flammability (solid, gas): | This product is not flammable. |
| Flammability Limit - Upper (%): | Not applicable. |
| Flammability Limit - Lower (%): | Not applicable. |
| Vapor pressure: | No reliable data available. |
| Vapor density (air=1): | 1,38 |
| Relative density: | 1,4 |
| Solubility(ies) | |
| Solubility in Water: | 61 mg/l |
| Partition coefficient (n-octanol/water): | Not known. |
| Autoignition Temperature: | Not applicable. |
| Decomposition Temperature: | Not known. |
| Viscosity | |
| Kinematic viscosity: | No data available. |
| Dynamic viscosity: | No data available. |
| Explosive properties: | Not applicable. |
| Oxidizing properties: | Not applicable. |
| 9.2 Other information: | Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level. |
| Molecular weight: | 40 g/mol (Ar) |

 Issue Date:
 16.01.2013

 Last revised date:
 14.04.2020

Version: 1.2

SDS No.: 000010021818 8/12

SECTION 10: Stability and reactivity

| 10.1 Reactivity: | No reactivity hazard other than the effects described in sub-section below. |
|--|--|
| 10.2 Chemical Stability: | Stable under normal conditions. |
| 10.3 Possibility of hazardous reactions: | None. |
| 10.4 Conditions to avoid: | None. |
| 10.5 Incompatible Materials: | Cryogenic liquids can cause embrittlement of some metals and alter the physical properties of other materials. No reaction with any common materials in dry or wet conditions. |
| 10.6 Hazardous Decomposition Products: | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| SECTION 11: Toxicological informat | tion |
| General information: | None. |
| 11.1 Information on toxicological eff | ects |
| Acute toxicity - Oral Product | Based on available data, the classification criteria are not met. |
| Acute toxicity - Dermal Product | Based on available data, the classification criteria are not met. |
| Acute toxicity - Inhalation Product | Based on available data, the classification criteria are not met. |
| Skin Corrosion/Irritation Product | Based on available data, the classification criteria are not met. |
| Serious Eye Damage/Eye Irritat Product | ion Based on available data, the classification criteria are not met. |
| Respiratory or Skin Sensitization Product | n Based on available data, the classification criteria are not met. |
| Germ Cell Mutagenicity Product | Based on available data, the classification criteria are not met. |

| | | Argon, refrigerated liquid | |

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Additional identification: Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Container valve guards or caps should be in place. Ensure adequate air ventilation.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU. Directive 2012/18/EU (SEVESO III) on major accident hazards involving dangerous substances, as amended.: Not applicable

National Regulations

Council Directive 89/391/EEC on the introduction of measures to encourage improvements in the safety and health of workers at work Directive 89/686/EEC on personal protective equipment Only products that comply with the food regulations (EC) No. 1333/2008 and (EU) No. 231/2012 and are labelled as such may be used as food additives. This Safety Data Sheet has been produced to comply with Regulation (EU) 2015/830. **15.2 Chemical safety assessment:** No Chemical Safety Assessment has been carried out.

SECTION 16: Other information

Revision Information: Not relevant.
